-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is responsive to applicant's amendment filed March 22, 2005. The amendment has been considered, however, it is not deemed to be persuasive. The terminal disclaimer filed therein has been approved and therefore overcome the double patenting rejection

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 4-22 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 1 recites that "at least a portion of the suture is positioned in the passage of the bone". This is a positive recitation of the suture and bone. The bone is non-statutory subject matter.

The examiner suggested changing terms such as "positioned" to - - positionable - - to overcome this rejection.

Claim Rejections - 35 USC § 103

Claims 4-6 and 13-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over McQuilkin et al (US Patent 5,219,359), Pierce (US Patent 4,823,794) and Corriveau et al (US Patent 5,366,480). The patents to McQuilkin et al, Pierce and Corriveau et al disclose devices having the same structural limitation as recited in claims. The problem in the art recognized by applicant is also recognized in the above prior art. The references are capable of being used in the manner recited. However, McQuilken lack teaching of metallic suture retaining members. Corriveau et al also

suggests multiple adapted for placement on either side of the bone to press against the bone with tension in the sutures. It would have been within the purview of one having ordinary skill in the art to utilize the references of McQuilkin et al, Pierce and Corriveau et al in the functional manner recited by the applicant.

Allowable Subject Matter

Claims 23-33 are allowable over the art of record.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
